Loki x wolf reader lemon

That's what TheDevilsQueen3 asked for! I hope you like! Smut warning! Your appreciation is recommended. Your Pov sighed as you sat in your room at The Avengers Tower. There were no alpha males in the tower although Tony liked to behave as he was. I've been given a groan and Tony walked a glow at you. (Y/n), you know Thor's brother here. You rolled your eyes like alpha, Tony, chuckle as you took a steak to your room to eat. Since you were in the heat you were staying away from the boys a delicious scent washed over you and felt yourself relaxed. Knock on your door, causing you to jump. The what! I'm eating a bull. M-maybe later open the door slowly and stop there a tall man with black-haired raven and blue eyes. His scent washed up on you and you closed your eyes. Chuckle and closed the door, walking you. So you're the omega I smell, baby. You muttered. His hands moved you gently to face him I looked into his eyes loki pov as soon as i stepped up to the tower, smelled all sides of the Wolf Avengers but one emerged. Omega needs alpha. Now I stand in front of that omega, and it smells almost crazy. She looked at her eyes (e/c) in those blue and felt her body's reaction to being so close to alpha. I stunned her neck before I inhaled it. Can I be gifted by your name? I smiled. (Y/n) lying on her bed, gasping. She intervened and closed and closed her door. He turned to Alpha, and she's a sin. I went over. What is love? I need you. My. My heat. She nodded her head. She nodded her head. Your POV + timeskip reason I'm lazy you moaned as Loki again started to thrust in at you. Your nails scratched his back and he kissed you. You've held your breath in the hope that Loki will know what to do with his fangs and then sink into your skin as you come in unison. You collapsed and tried to get your breath back. I just realized that my phone is dying halfway I hope I like to post the next one when my phone is charged! Characters: Loki Laufeyson X Male! ReaderUniverse: Marvel, AvengersWarnings: Moderate Violence, SwearingRequest:Um maybe while he's exiled to Midgard he and other Avengers are playing (2 Facts and a Lie or something like that) he says he has a lover back home and they don't believe him so he uses magic and creates an illusion of memory with them and Thor brings them to Midgard and surprise Loki for a special occasion or they just show up and so Loki and the male reader become rude parental characters to Peter? Originally published by 0goddammitLokiLoki was always angry. It seems that all his eyes can do is glow so he can keep his eyes closed and ignore you he was seen as friendly. So when Thor insisted that he wasn't always like this, the whole team made the decision to try to see this side, and if he didn't just do it to annoy him. Sometimes they brought him food, and forced him out for 'Time Bonding Avengers' (which was usually bowling or arcade games, where the cause of injury to each other could neither be excused.) and tonight, the games were that would get any group of giddy teenagers. What do two truths and a lie look like? Tony asked. You may want to explain it to the elderly. Natasha joked, moving her head in the direction of Steve, Thor and Loki. Steve chuckled, Thor gave him his usual 'I'm just glad to be here' loki smile rolled his eyes and half. Well, so we take it in turns to tell two truths and a lie, and the rest of us have to figure out what the lie is. Tony simply explained. Sounds simple enough. Thor replied. Who should go first? I'll go first! Clint's show. Well, one... Once I shot myself, two, I was once in the circus, three, almost my wife spoke in calling our first son Willie from Willy Wonka. Oh that last one is such nonsense, as if you could talk about it in it. Tony answered quickly. True, I bet if you even suggested that she want to kick your weck, pregnant or not. Natasha added. Are they right? Thor asked. Yes! Clint confirmed. Well, who's next? Steve asked to raise his hand ... One, I once ran into a wall, two, and I once fought a man in an alley with a ben cover, and three once I hit Bucky in arm wrestling before the serum. Oh this is so easy. Obviously three. Thor responded proudly. Actually... It's one. What? There's no way! How the hell? Bruce asked, puzzled while Steve laughed, obviously not willing to give up his secret. Loki, how about you go after that? Thor, looking at his side where his brother was, suggested that the arms crossed. Loki Hawk, expecting them to choose someone else if he stays calm, but all eyes remain on him and he realizes it won't happen. He sat down a little bit and got up again well, it's ok, it's ok, no first, I stabbed Thor once after I disguised himself as a horse, two I have a lover and three I faked my death more than twenty times. He came out fairly quickly before retreating into his seat. The room remained quiet. ... It's two. Tony finally decided. Loki smiled, and Thor couldn't help but laugh. The what? You're joking, aren't you? Loki has a boyfriend? You're kidding Steve added on, i was shocked too. It's the truth, I assure you. It's Y/N, Loki is half better, quite literally. Thor explained, almost putting his hand on his brother's shoulder. ... Is that why you're so angry when you're here? Natasha concluded, getting a wide-eyed look from Loki. Oh, it is! You miss him when you're here, and that's kind of nice. She was a mum. Clint's marto as well, seeing a threatening habit and the cold of God Demi become flustered and lubbering as he sinks into his seat. Thor looks at his brother, a flash of frown appearing and then digging before he sees Loki. The Avengers have tried to get more loki around Y/N ever since. What do you think? What are your thoughts on his attempt to take over the earth? Were you as stupid as he was? That last one got Tony a broken lip, and Loki became more distant. At all. The next day, Thor announced that he needed to make a quick visit to Asgard for something, and no one hit his eye, because it was normal. Everyone! I am back! His ad still made everyone jump a little in size, before the regular reactions that followed, rolled eyes, playful groans and welcome back. I have brought nothing, or should I tell someone, along with me! He announced aloud as well, getting the attention of a special prankster who was by his back turned to his brother and kept his head in his book. He turned to see who brought him, before practically jumping off the couch and tripping, pushing Thor out to hug the man. Muttered in your shoulder, as the hugs were prepared, until he put a kiss on his temple. That simple gesture told everyone who was confused about who you were, the answer. Will you guess you're Y/N? Tony asked. Are you going to guess you're Stark? I answered, pulled away, kept an arm around your leg, and Tony looked up and down. Oh yes, absolutely Stark. I got stuck again, and Loki couldn't help but laugh. Your eyes alone told Stark it was an insult. Doesn't mean it's much better. Keep an eye on my mouth about my Y/N, my dear brother. Loki turned his head to his brother, who immediately took a step back, and Loki walked with you from the room to enjoy each other's company. I hope you like it!
